

React Hooks Instant Cheatsheet

1. USESTATE HOOK

```
const [state, setState] = useState(initialValue);  
setState(prev => prev + 1);
```

2. USEEFFECT HOOK

```
useEffect(() => {  
  // Side effect logic  
  return () => { /* Cleanup */ };  
}, [dependencyArray]);
```

3. USEMEMO HOOK

```
const memoizedValue = useMemo(() => computeExpensiveValue(a, b), [a, b]);
```

4. USECALLBACK HOOK

```
const memoizedCallback = useCallback(() => { doSomething(a, b); }, [a, b]);
```
